INTERNATIONAL
WELDING
CONFERENCE

Welding Engineering
in the Era of Sustainable Development

The conference will be held during the 9th edition
of the International Welding Fair ExpoWELDING.

International Welding
Fair ExpoWELDING

15 - 17
October
2024

WELDING ENGINEERING IN THE ERA OF SUSTAINABLE DEVELOPMENT – INTERNATIONAL CONFERENCE IN POLAND

The most important welding event in Poland is going to happen on **15-17 October 2024!**

Every two years **Łukasiewicz Research Network – Upper Silesian Institute of Technology, Centre of Welding** (Łukasiewicz – Górnośląski Instytut Technologiczny, Centrum Spawalnictwa), member of International Institute of Welding and European Welding Federation invites Polish and international welding experts to attend the welding conference and international welding fair.

The next, 65th edition of the event is going to be held in the **International Congress Centre in Katowice (Poland)** in October 2024. The main event is International Scientific Conference: **“Welding Engineering in the Era of Sustainable Development”**, much appreciated by representatives of Polish welding community. The International Welding Conference is accompanied by the International Welding Fair ExpoWELDING (<https://www.expowelding.pl/2024/en/>).

The three-day conference meeting, along with the biggest International welding fair in Poland, is a great opportunity to meet Polish and international welding experts, follow the development of research on welding technology, new welding materials and equipment.

The organizers invite EWF welding experts to participate in the events. There is possibility to submit a lecture on one of the general topics connected with welding and related processes, especially: new technologies of arc welding, beam welding, resistance welding, adhesive bonding, testing of welded constructions, education and certification in welding. The papers may be prepared in English.

More information can be found in the Conference website:
